

Pressure System Management & Protection Services

The Challenge

Asset Managers face the crucial challenge of how to manage the integrity of pressure systems (whether hydrocarbon, marine or utility) while meeting budget and production uptime demands. Conventional RBI based systems focus inspections on high risk components but the low 'hit rate' of conventional methods still leaves a large and costly work scope to be completed, especially as assets become larger and more complex.

The Solution

EM&I has developed a new concept of RBI (ANALYSE) that uses statistical analysis of digitised data to reduce the workscope and costs by up to 50% while providing increased assurance of plant integrity. ANALYSE is part of EM&I's long established and proven RBI Pressure System Management & Protection package. This means that you have one organisation committed, capable and accountable to you for delivering a cost effective and compliant pressure system management and protection service.

- In House Engineering Capability
- Corrosion Management Strategies
- Database Set-up, Population and Management
- Risk Based Inspection Plans
- Cost reducing inspection innovations
- Non Intrusive CUI and Wrap repair inspections
- C-Fix Combined inspection and remedial action package

The Benefits

- Reduced cost
- Improved integrity assurance
- Reduced risk of LoPC
- Reduced POB

Track Record

EM&I measures our performance through systems like FPAL and unsolicited testimonials. Our proven track record of satisfied Clients is available on our Website.

Further information is available from your nearest EM&I office which will be pleased to discuss your particular needs.

Case Histories and References, demonstrating our capabilities and Client satisfaction, are available on our Website.

Credentials

Health & Safety – EM&I has an outstanding HSE record and has been granted the RoSPA President's Award in recognition of being awarded eleven consecutive RoSPA Occupational Health & Safety Gold Awards including five Gold Medals and numerous other international awards.

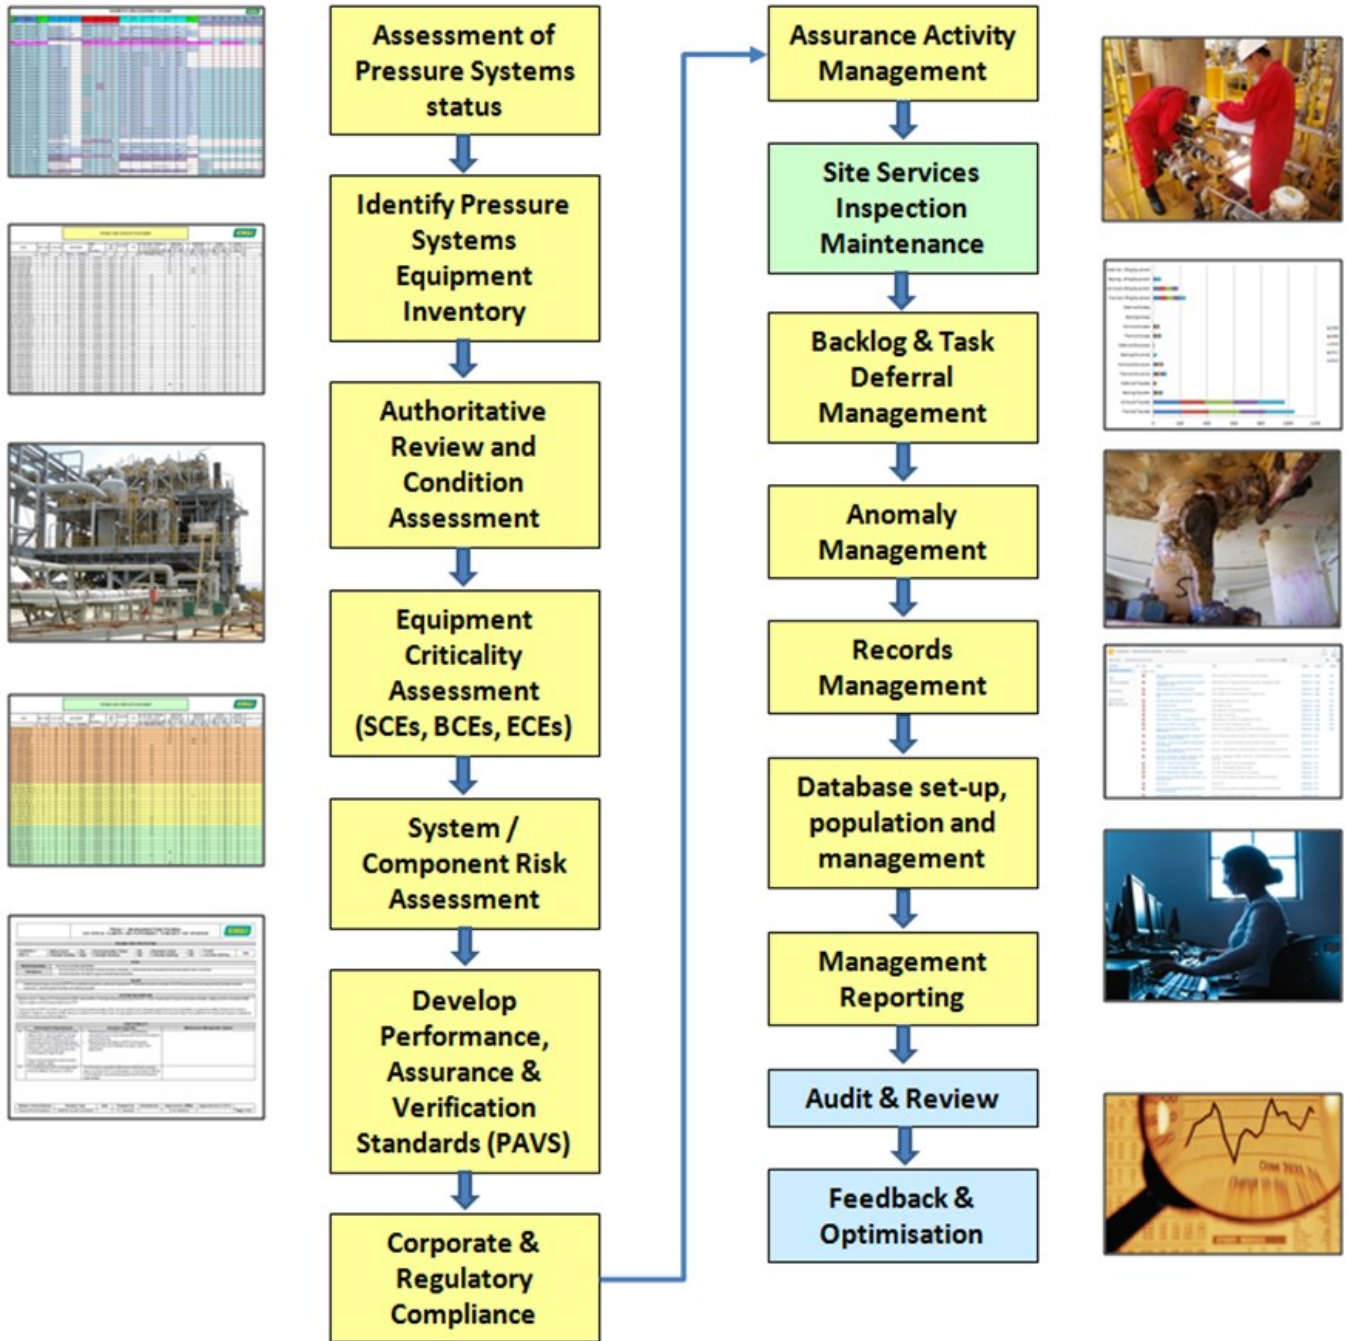

Other safety awards include IFAP Safe Way Safety Achievement Awards and the Leith Offshore Safety Award.

Quality – EM&I assures quality through accredited ISO 9001 and ISO 17020/17025 management systems and seeks continuous improvement by measuring Client satisfaction through FPAL and regular Stewardship Reviews.

Compliance – EM&I's methods are approved by Classification Societies and accepted by regulators worldwide.

Rope Access – EM&I have been a Full Member of IRATA since its inception in the 1980s.

HITS JIP – EM&I have a leadership role in the Hull Inspection Techniques and Strategy (HITS) JIP whose members include Oil Majors, Classification Societies, Regulators, Lease Operators and service companies.

Integrated Services

EM&I's proven technical and project management experience means we can successfully deliver complete projects thus letting you focus on your core business.

Our in-house service capability includes Asset Integrity Systems, Inspection, NDE, Maintenance & Repair, Corrosion Management, Cathodic Protection, Safety, Environmental and Engineering services.
