

Asset Integrity Management Services

The Challenge

Asset Integrity is increasingly important to optimising safety and operational efficiency in the Oil / Gas industry. Operators need to comply with Corporate and Regulatory requirements but recognise that developing and managing an effective and compliant Asset Integrity Management System is both time consuming and costly.

The Solution

EM&I have been helping Operators develop and manage their Asset Integrity Systems for over 15 years and have a compliant and simple-to-implement approach that has a proven track record.

EM&I's proprietary O-AIMS methodology is tailored to suit individual Operator's needs and interfaces with all major Maintenance Management Systems and software.

O-AIMS methodology includes assisting Operators to self-assess their existing asset integrity system and uses this output to create and implement a structured Improvement Plan.

EM&I also offers training and ongoing integrity management support for however long an Operator requires it.

EM&I's integrity service is underpinned by an experienced engineering team including integrity, corrosion, electrical, inspection, marine, safety, environmental, structural, and other related disciplines to support your ongoing asset integrity activity.

The Benefits

EM&I's flexible approach means you get an integrity system tailored to your needs and budget. EM&I's experience and straightforward approach saves you time and cost while delivering a best-practice, high value integrity system.

Track Record

We measure our performance through systems like FPAL and unsolicited testimonials. Our proven track record of satisfied Clients is available on our Website.

Further information is available from your nearest EM&I office who will be pleased to discuss your particular needs.

Case Histories and References, demonstrating our capabilities and Client satisfaction, are available on our Website.

Credentials

Health & Safety – We assure Occupational Health & Safety through our ISO 45001 accredited Health & Safety Management System. EM&I has an outstanding HSE record and has been awarded twelve, consecutive, RoSPA Occupational Health & Safety Gold Awards including five Gold Medals and four President's Awards plus other international awards.

Other safety awards include a platinum IFAP Safe Way Safety Achievement Award in Australia and the Leith Offshore Safety Award.

Environmental – We assure Environmental performance through our ISO 14001 accredited Environmental Management System.

Quality – We assure quality through our ISO 9001, ISO 17020 and ISO 17025 accredited Quality Management Systems and seek continuous improvement by measuring Client satisfaction through FPAL and regular Stewardship Reviews.

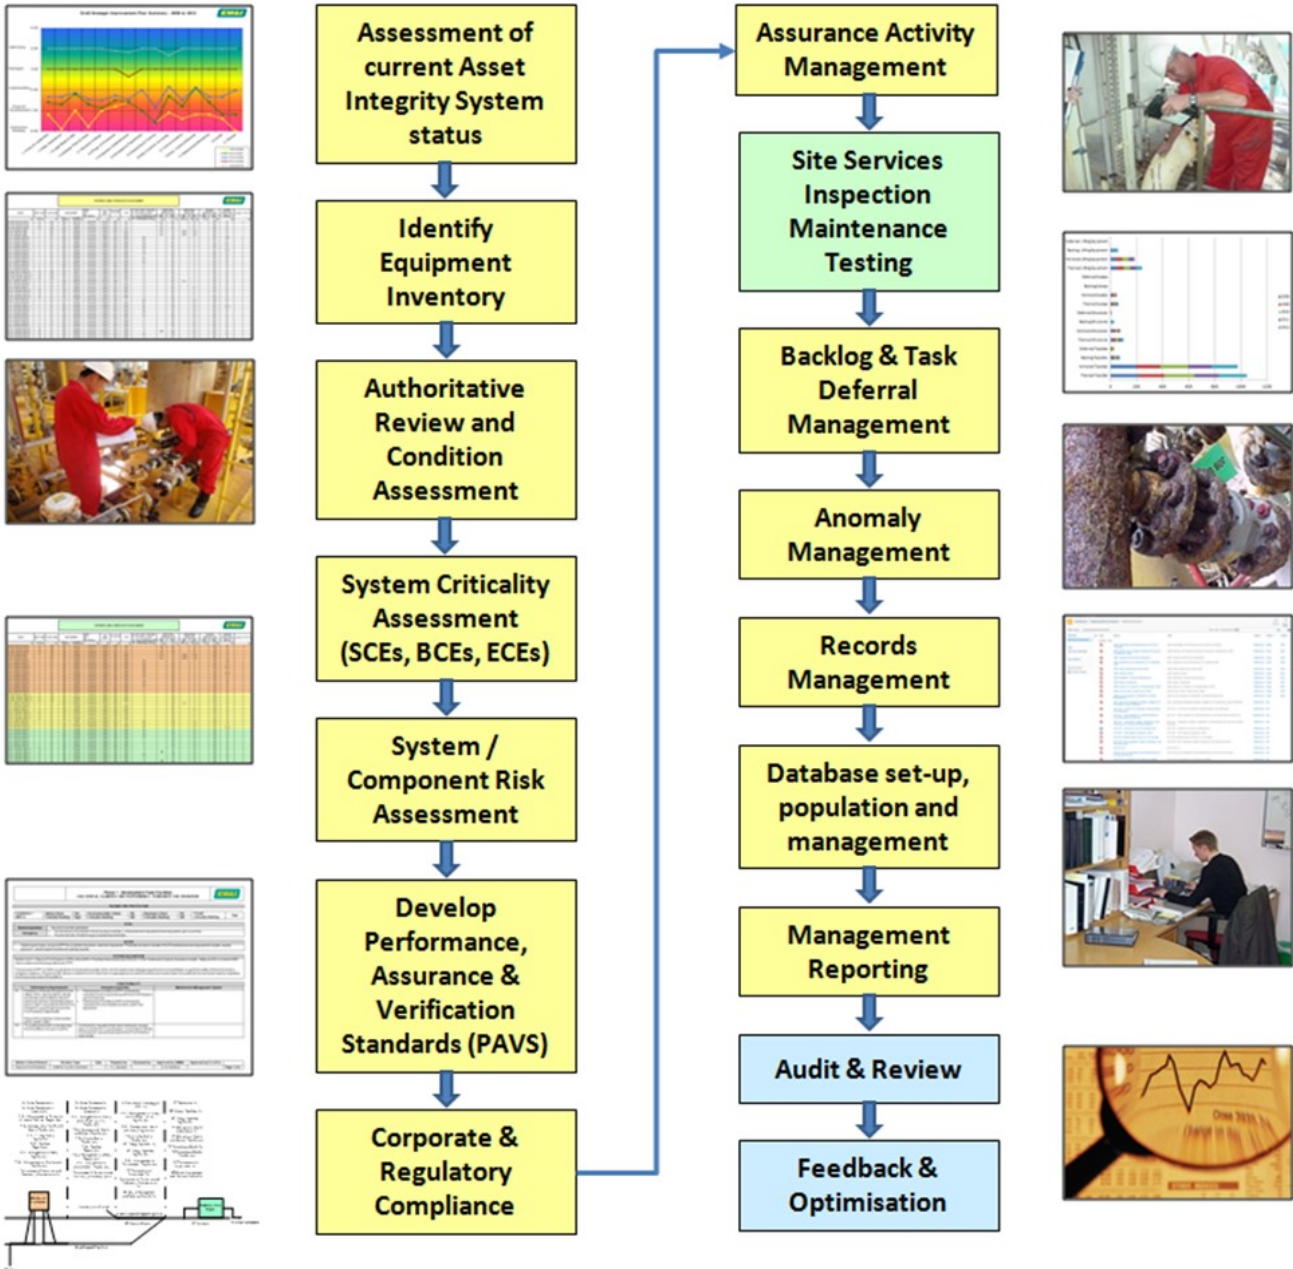

Compliance – EM&I's methods are approved by Classification Societies and accepted by regulators worldwide.

Rope Access – EM&I have been a Full Member of IRATA since its inception in the 1980s.

HITS JIP – EM&I have a leadership role in the Hull Inspection Techniques and Strategy (HITS) JIP whose members include Oil Majors, Classification Societies, Regulators, Lease Operators and service companies.

Asset Integrity Management

O-AIMS Process Summary

Integrated Services

EM&I's proven technical and project management experience means we can successfully deliver complete projects thus letting you focus on your core business.

Our in-house service capability includes Asset Integrity Systems, Inspection, NDE, Maintenance & Repair, Corrosion Management, Cathodic Protection, Safety, Environmental and Engineering services.
